## Off-day info

During the off-day you can just enjoy Helsinki, its attractions, and surroundings.

We hosts are also happy to help you to plan your Helsinki day, where to go and where to eat etc. Also check the meeting homepage for more tips for the day.

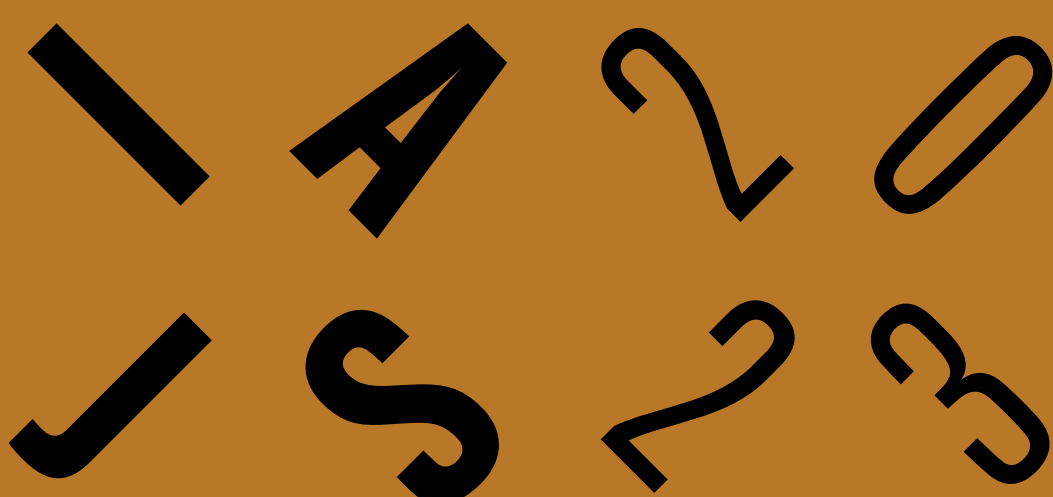

We have organized optional sport activities for you: Padel and tennis with professional coaches or possibility to play table tennis/badminton on your own at the nearby sports center.

Or you can choose the hippest sport there is at the moment: disc golf also with professional coaches in picturesque surroundings just outside Helsinki.

No previous experience on any of the sports required.

**NB!** For tennis/padel or disc golf please enroll by the info desk.

# Tap water in Helsinki is safe and as good as bottled water so please refill your IASJ-water bottle from the nearest water tap.

Please respect the nature by sorting your waste, reducing food waste and avoiding buying plastic water bottles. Tap water in Helsinki is safe and as good as bottled water so just refill your IASJ-water bottle from the nearest water tap.

Recycling saves natural resources and prevents emissions that accelerate climate change.
